

Oxygen.

Dear Alan

Further to our audit at your offices earlier this week.

I would like to confirm that Barry and I were impressed with the administration and technical claims handling service provided by your team. It was evidenced that the correct procedures were followed and decisions were made in a timely manner and in accordance with the terms and conditions of the cover.

The team are providing a consistently high level of service and the technical standard is exceptional.

In the circumstances we have increased your delegated authority up to €1500 in all BRIT programmes.

I have asked Charles to provide an endorsement to this effect.

Thank you for your hospitality and your time on Sunday and Monday

Kind regards,

Caroline
